

Cap Coder is a family run engineering company specialising in the design and manufacture of standard and bespoke solutions to capping, coding and filling applications.

Our Management System complies with the requirements of BS EN ISO 9001:2015 'Quality Management Systems' and with the requirements of the appropriate international accreditation standards associated with the design and manufacturing of machinery

**At Cap Coder our quality policy is to:**

Provide High Quality Machinery to the packaging industry that;

- Fully Satisfy our clients requirements
- Conform to all relevant legislation and meet the needs of all interested parties that are relevant to the Quality Management System.
- Continue to improve the quality of the engineering design and operation of our machinery to meet the changing demands.
- Ensure the continuous development of our staff to ensure both quality improvements and technical expertise

**Cap Coders directors are committed to the implementation and improvement of our quality system which we will achieve by:**

- Providing all resources necessary to Establish, Implement and Maintaining a quality system certified against ISO9001:2015
- Setting and reviewing measurable Quality Objectives and ensuring that these are met.
- Reviewing the effectiveness of the Quality Management System and assessing opportunities for improvement.
- Seeking feedback form all interested parties to ensure we manage the system effectively.

**It is the responsibility of the Directors, Managers and the Employees to implement the procedures that form the Quality Management system.**
